## THE CONCERN OF ABDUCTED GIRLS IS THE CONCERN OF HUMANITY

*To condemn the  
infliction against  
these young and  
hopeful girls, the  
affiliation should  
be humanity.  
The infliction  
happened against  
those hopeful  
University  
students in  
Ethiopia is a  
mind rape.  
Raping a mind is  
nothing but  
robbing one's  
hope, and hence  
denying his/her  
future*

**By: Habtamu Girma (Assistant Prof. of Economics, Jigjiga University)**

The concern of abducted female students in western Ethiopia should not be politicized. The issue should not be subjected to affiliations with abductees as a family, friend, neighbor, shared identities like sex, ethnicity, religion, citizenship or whatever

To condemn the infliction against these young and hopeful girls, the affiliation should be humanity.

As a matter of fact, the inflictions happened against the university students is a mind rape. Raping a mind is nothing but robbing one's hope, and hence denying his/her future.

In essence, there is no more cruelty than raping the mind of humankind. Because, no one can stand while his/her mind raped. Hence, justifying the abduction of these young girls is inhumane.

Above all, any failure to condemn such barbaric act amounts perpetrating with homiciders against virtues of humanity!

Therefore,

Let's all shout for the release of abductees!

Let's all voice against the growing impunity in Ethiopia!
